Partner

Daniel DeLaughter, CPA
Partner

Global competition, economic downturn and pricing pressures have greatly affected the manufacturing and distribution sectors of this country. Yet, the changes experienced by this segment of the economy still remain strong and vibrant.

At Saville, we have worked with manufacturing and distribution companies both domestically and internationally offering a holistic perspective that encompasses a blend of strategic planning, tax optimization and business advisory. When you work with our team, you will have full availability to our partners and senior staff that have extensive knowledge.

Types of Manufacturing and Distribution companies served:

- Domestic and international manufacturer and distributor of security and hobby metal detection products

Services Provided: financial audits, tax consulting, IC-DISC, cost segregation study, inventory capitalization, internal control procedures and revenue recognition

- Print manufacturer with operations in North America, Central America, South America and Asia specializing in servicing the high-tech telecommunications industry

Services provided: tax consulting, financial matters, establishing and administering and IC-DISC, internal control procedures, revenue recognition, inventory valuation and tracking

- Designer, manufacturer and retailer of high-end women's and men's apparel with one design studio and six retail outlets manufacturing the products both domestically and in Europe

Services provided: start-up consulting and various financial matters
